

**Director of the Center for Nursing Innovation and Education
(non-tenure track)
2018-19**

This position provides leadership of the Center in the design and implementation of simulation resources in the undergraduate and graduate programs of the Division of Nursing. This position is a full time 9 month faculty appointment with administrative responsibilities that reports to the Chair of the Division of Nursing.

This position collaborates with course faculty to plan, design, implement and evaluate simulation based learning across the continuum of simulation from role play to high fidelity simulators for undergraduate and graduate programs to support student development in clinical reasoning, clinical competence and lifelong learning.

Skills/ Abilities/ Competencies:

- Visionary approach to simulation education in academic settings
- Demonstrated ability to plan, implement and evaluate all aspects of simulation education
- Skilled in use and basic maintenance of simulation equipment
- Collaborative approach to working with faculty, staff and students
- Excellent organizational, interpersonal and written/verbal communication skills
- Commitment to fostering diversity, collaborative learning and the caring ethic of the profession

Qualification:

Required:

- Master of Science in Nursing (required), doctorate preferred;
- Current unencumbered license to practice as a Registered Nurse in Ohio
- 3-5 years recent experience in the following:
 - Clinical practice in acute patient care and/or emergency or trauma conditions; excellent knowledge and understanding of human pathophysiology
 - Simulation based education, evaluation of outcomes, patient safety or an equivalent combination of training and experience

Preferred:

- Doctoral degree in Nursing or related field
- Certified in Simulation Education
- Teaching in simulation
- Undergraduate teaching experience
- Curriculum Development and Program Evaluation
